

## RFLock 1600

### Check Our New Look and Features!

- Enhanced Battery Life
- Improved Visual Feedback
- Double Sealed
- Extreme Weather Design
- Stainless Steel
- Key for Mechanical Override

## SUPERIOR BY DESIGN

BeLine's RFLock 1600 continues on with the same reliability and craftsmanship as its predecessor, the RF1500. The new RF1600 sports a new attractive look with improved technical enhancements. A notable improved design is the double sealed system. Behind the stainless steel face of the lock is tough metal core to protect the electronics. Also protecting the electronics is a specially potted circuit board to withstand harsh weather such as corrosive salt air or below freezing temperatures. On top of that, it has a case that is dedicated to protecting the circuit board assembly. In essence, this lock is ready for whatever nature has in store for it.

It's not a coincidence that BeLine is known for world class locks. We simply make it better!

# RF Lock 1600

Designed for the Lodging Industry  
True Stainless Steel Finish  
Radio Frequency Card Reader  
Potted Card Reader Circuitry  
Storage of Name on Card  
Unlimited Cardkey Generation  
Public Door or Group Programmable  
Audit Trail Reader (Optional)  
Hierarchical Management Cards for Leveled Access  
12 - 18 Month Battery Life  
All Weather Use  
Sub Zero Temperature Tested  
Password Protected Software  
Hidden Mechanical Key Override

Supply Voltage	4 AA Batteries	Dimension	97 x 17 x 260 [mm]
Amperage	18 mA	Weight	~5.5 LBS
Relative Humidity	20% - 98%	LED	Single Multicolor
Operating Temperature	0C - 70C	Low Battery Indicator	by LED
Storage Temperature	0C - 85C	Access/Denial Indicator	by LED & Sound
Mechanical Type	Mortise	Deadbolt Throw Length	1 inch
